

COPELAND COMPRESSORS

Ferguson stocks Copeland compressors for your next replacement job. Copeland manufactures industry-leading compressors that are efficient, reliable, and easy to install. They are suitable replacements for Bristol, LG, and more. Ferguson is your source for both residential and commercial replacement compressors.

This year, you can money by participating in the 2019 Cooling Parts Program. This program features 11 different residential compressors.

With both reciprocating and scroll compressors in R-22 and R-410A models, the SKU's in the program were chosen to provide a solution to the most common replacements you need. See the list of qualifying SKU's on the right.

R-22 Reciprocating Compressors:

- ICR22K6EPFV775
- ICR28K6EPFV775
- ICR34K6EPFV775
